## Beautiful Skin.

Choosing a solution for skin treatment was once a confusing and difficult decision. Many methods and technologies promise the best results, but most fall short.

The Aurora™ and Galaxy™ Systems, powered by elōs™ technology, have changed everything.

*Simply put, elōs is proven to be the safest, most effective and comfortable solution for the superior results you demand.*

Excellent skin treatment results.

### What is elōs?

The newest development in skin treatment is technology powered by elōs. Unlike laser and light-based technology which use only one energy source, elōs is the only technology to combine two energy sources for maximum safety, effectiveness and comfort. elōs combines light and radio frequency energies to get superior results with lower overall energy output. Lower energy output means the highest level of safety and comfort for you. Gentle pulses of targeted energy isolate the treatment area and leave surrounding skin free from potentially harmful side effects.

### Beautiful Skin. Made Simple.

elōs safely and comfortably treats Rosacea, spider veins, skin imperfections caused by sun damage, plus age spots and uneven skin tones created by brown and red spots. All of these conditions, which can make the skin look older and less healthy, are no match for the power of elōs.

### Expect the best.

You can expect your skin to look smoother, clearer, even-toned and healthier-looking.

### Make the Superior Choice – Choose elōs.

Talk with your doctor to discuss how elōs technology can help you achieve superior results for skin treatment.
